

Shamsher Ali

DevOps Engineer

✉ shamsherali.devops@gmail.com 📞 wtp: +923058840463 🏠 Lahore, Pakistan

Professional Summary

Highly skilled DevOps Engineer with experience in automating CI/CD pipelines, managing cloud infrastructure, and optimizing system reliability on AWS/Azure. Proven expertise in infrastructure-as-code (Terraform, Ansible), containerization (Docker, Kubernetes), and monitoring tools to accelerate deployment cycles. Committed to enhancing operational efficiency and fostering a culture of collaboration through robust, scalable, and secure engineering practices.

Skills

Core Competencies:

- Adaptability, Problem-Solving, and Decision-Making, Management & Organization with Attention to Detail.
- Excellent Communication, Empathy with Stakeholders. Confidence, Professionalism, and Team Collaboration.

Core Skills and Tool:

- Cloud & Infrastructure:** Proficient in architecting and automating scalable AWS environments using Terraform for provisioning and Ansible for configuration management.
- CI/CD & Containerization:** Expert in streamlining development lifecycles by integrating Docker containers with automated deployment pipelines via GitHub Actions, GitLab CI, and Jenkins.

Other Skills:

- AI Automation, AI agents making, UI/UX designer, Web Development, Data Analysis, WordPress .

Experience

DevOps engineer Intern

Nov 2025 – Jun 2026

DTechKrew, Lahore

- Engineered scalable, automated infrastructure on AWS using Terraform and Ansible, while optimizing CI/CD workflows with Docker, Jenkins, and GitHub Actions to significantly increase deployment velocity and system reliability.

Teaching & Freelancing

Jan 2022 – Present

social media platforms

- Technical Engineering & Design:** Delivered end-to-end AI automation, web development, and UI/UX solutions for global clients while managing complex data analysis and project workflows.
- Education & Mentorship:** Provided personalized instruction in Mathematics, Computer Science, and technical literacy to diverse learners, bridging the gap between theoretical foundations and practical application.

Projects

- **Cloud Infrastructure Automation:** Built a scalable, production-ready AWS environment using **Terraform** for infrastructure provisioning and **Ansible** for automated configuration, ensuring consistent and reproducible deployments.
- **End-to-End CI/CD Pipeline:** Architected a robust CI/CD pipeline integrating **Jenkins** and **GitHub Actions** to automate code testing and deployment, significantly accelerating the software release lifecycle.
- **Containerized Microservices Deployment:** Containerized applications using **Docker** and implemented streamlined deployment workflows via **GitLab CI**, improving application portability, resource efficiency, and deployment reliability.

Education

BSCS (Bachelor of Science in Computer Science) – 16 year of education

Aug 2019 – Aug 2023

UOS , Punjab , Pakistan

- Among the top 5% of the batch.
- **Core Technical Foundations:** Programming, Data Structures & Algorithms, Computing.
- **Specialized Expertise:** Advanced focus on AI Engineering, Automation.

Certifications

DevOps Certification – Simplilearn (Online)

- Completed foundational training in DevOps practices, covering basics of CI/CD, version control (Git), cloud fundamentals, and automation tools. Built beginner-level skills in streamlining software development and deployment workflows.

Interests and Personal Pursuits

- **Academic and Technical Growth:** Reading (Quran as favorite), analytics, teaching, coding, and problem-solving.
- **Personal Engagements:** Sports (cricket) and traveling, fostering balance and adaptability

Contact via WhatsApp
